Summary

I am a dynamic and enthusiastic individual with a strong foundation in Java oops web technologies including React.js, Redux, JavaScript, HTML, CSS, Node.js, MySQL, Linux, and AWS. As a recent graduate, I bring a fresh perspective and a hunger for continuous learning, making me adaptable to new technologies and methodologies. I am eager to leverage my skills and passion for technology to contribute effectively to any team and drive impactful results

Skills

Java	· OOPS	· ReactJs	· Redux	· Javascript	· Mysql
HTML	· CSS	· Linux	· AWS	· NodeJs	· Typescript

Projects

News 24
News fetching Application

- Developed an Android news application using Java and XML, integrating network APIs to display the latest news across various categories.
- Implemented intuitive navigation, efficient data fetching, and smooth user experience. Emphasized performance optimization and future scalability.
- Received positive feedback for user-friendly design and functionality.

InstaVibe
Social Media Application

- InstaVibe is an innovative social media application developed to deepen proficiency in the MERN stack.
- Through creating InstaVibe, I honed my skills in full-stack development, database management, and real-time data handling.
- It serves as a testament to my dedication to continuous learning and mastery of modern web technologies.

Internships

DigiTranIT Software Solutions
